RE: Semi-Annual Groundwater Sampling Report
North Mecklenburg Landfill
Permit #60-13 and 60-13 Amendment I for Phase I and Phase II
Huntersville, North Carolina

Dear Mr. Rose,

North Mecklenburg Landfill is currently performing groundwater sampling semi-annually on the closed portion of our previous C&D landfill area (Phase I and Phase II). The wells included around the perimeter of the closed landfill area are MW-1, MW-4, MW-6, MW-10 and MW-11. These wells have been sampled semi-annually since 1993. Based on analytical results of these sampling events, no volatile organics or metals of concern have been detected above NCDENR 2L Standards to date. We request your permission to drop back to annual sampling of this area. The monitoring of our active C&D Landfill, Permit #60-13 Amendment III, will continue to be performed semi-annually.

We look forward to your response. If you have any questions, please do not hesitate to contact me at 704-895-0329.

Sincerely,

A handwritten signature in dark ink, appearing to read "Ronald C. Gilkerson".

Ronald C. Gilkerson
